

## MultiSwitch Magnet

### Product advantages

- ▶ Sensor for drilling, for insertion
- ▶ Invisible installation possible
- ▶ Connection of 1 to 4 identical sensors to 1 master unit

### Features

- ▶ Soft ON/OFF function (soft start when switching on/off only at 12/24 Volt DC)
- ▶ Memory function for power failure
- ▶ Proximity switch with reed principle
- ▶ Penetrates up to 15 mm of material

### Application

- ▶ Door contact switch
- ▶ Can be used behind edges

### Order information

- ▶ Magnet included in delivery
- ▶ Master unit is always required
- ▶ With the magnet from the accessories, up to 80 mm distance can be bridged

### MultiSwitch Magnet

Sensor for insertion into pot holes, 35mm diameter	30 162 01
Magnetic sensor for drilling in, aluminium look	30 156 01
Magnetic sensor for drilling in, black	30 156 05

### Accessories

Master unit 12 Volt DC – 36 W	30 142 01
Master unit 12 Volt DC – 60 W incl. ballast	30 146 01
Master unit 230 Volt AC – 500 W with Euro flat plug	30 141 01
Master unit 24 Volt DC – 120 W	30 143 01
Master unit Vario 12 Volt DC – 36 W	30 144 01
Repeater 12 Volt DC – 36 W	30 263 07
Extension lead sensor cable 3000 mm	36 830 01
Magnet, penetrates up to 80 mm material	36 266 03

### Technical details

Surface finish: Black / Aluminium look  
 For use with: LED lights  
 Max. switching power: 12 Volt DC-36 W  
 24 Volt DC-120 W  
 230 Volt AC-500 W  
 Test marks and symbols: CE  
 Master unit supply lead: HV 3000 mm  
 LV 2000 mm  
 HV 150 mm  
 LV 300 mm  
 Switching lead:  
 Standby: <0.5 W - Master unit including sensors
