

MultiSwitch Touch

Product advantages

- ▶ Sensor with dimming function for flush installation or surface mounting
- ▶ Connection of 1 to 4 identical sensors to 1 master unit
- ▶ With built-in orientation LED that can be switched off

Features

- ▶ Soft ON/OFF function (soft start when switching on/off only at 12/24 Volt DC)
- ▶ Memory function for power failure
- ▶ Dimming function can be switched off

MultiSwitch Touch

Sensor for installation including mounting housing, black	30 154 05
Sensor for installation including mounting housing	30 154 01

Accessories

Master unit 12 Volt DC – 36 W	30 142 01
Master unit 12 Volt DC – 60 W incl. ballast	30 146 01
Master unit 230 Volt AC – 500 W with Euro flat plug	30 141 01
Master unit 24 Volt DC – 120 W	30 143 01
Master unit Vario 12 Volt DC – 36 W	30 144 01
Repeater 12 Volt DC – 36 W	30 263 07
Extension lead sensor cable 3000 mm	36 830 01

Application

- ▶ As touch button with dimming function
- ▶ As on/off switch as well as toggle switch
- ▶ Switching and dimming at 12/24 Volt DC
- ▶ Switching at 230 Volt AC and Vario

Order information

- ▶ Master unit is always required

Technical details

Surface finish: Black / Aluminium look
 LED lights

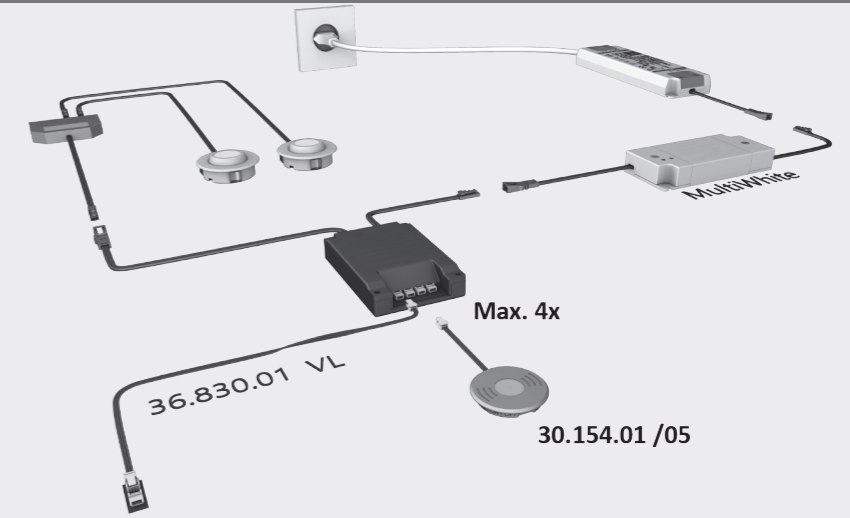

For use with:
 Max. switching power: 12 Volt DC-36 W
 24 Volt DC-120 W
 230 Volt AC-500 W

Test marks and symbols: CE
 Master unit supply lead: HV 3000 mm
 LV 2000 mm
 LV 300 mm

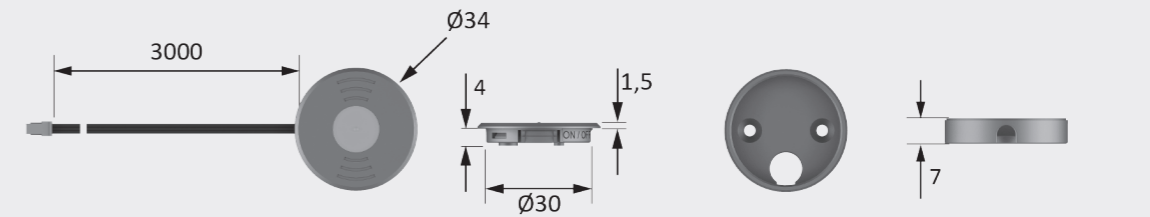

Switching lead:
 HV 150 mm
 LV 300 mm

Standby: <0.5 W - Master unit including sensors
